Habitat Restoration

PIZZO

Native Plant Nursery

Beauty, The Way Nature Intended

- We work with landowners to restore natural environments, using native plants while controlling and stopping invasive species.
- Founded in 1988, Pizzo & Associates is one of the Midwest's largest ecological restoration firms with over 170 industry awards.
- The Pizzo Native Plant Nursery produces over 2 million plugs annually with over 400 species of native plugs and seed.

PIZZO & ASSOCIATES

VISION

To be the industry leader of habitat restoration as we strive to continuously restore, steward, and represent nature for all generations.

MISSION

We are dedicated to the preservation and restoration of our natural environment. Our mission is not just a commitment but a passion to rejuvenate and sustain the beauty of our planet for generations to come.

PIZZO NATIVE PLANT NURSERY

VISION

That native plants are used in all planting applications, because their value in enhancing and restoring our environment is widely understood and accepted.

MISSION

Build ecologically balanced communities through education, promotion, cultivation and trade of top-quality native plants.

First, a quick look at what nature looks like restored.
